Available on request.

#### About Me

**In my own time I do a lot of outside reading and independent study. I motivate my independent study by setting goals to achieve;**

I prefer to learn skills as I need them, so I can focus on finding solutions and create more content and experiment with different technology stacks.

### More About My Education

**01/10/2019 – CURRENT**

#### Bachelor of Science in Computing and Computer Science

During my studies at Varna Free University, I have had the opportunity to hone my skills in **database systems, networking administration, and information security**. With this knowledge I am able to operate in a **Windows** and **Linux** environment and comprehend system optimization and security principals.

I am also familiar with **network** and **software engineering, software packages, and multimedia design**. I am familiar with the basics of programming, the process of designing and creating a functional computer program that can achieve a particular result or perform a particular task.
